ENGINEERED MESH CONSTRUCTION

Delivers breathable comfort

MACH 4

TRAIN TO FLY. EVERY DAY.

In its fourth edition, the **Mach 4** takes its biggest leap forward, built on themes inspired by the Rocket X and Carbon X. Designed for logging long miles, this everyday trainer delivers a lively ride and energetic underfoot feel that is unquestionably HOKA. Softer and bouncier than the previous iteration, the **Mach 4** employs a harmonious blend of foams – merging an incredibly soft, lightweight foam on top with rubberized foam directly beneath. This up-tempo shoe has been crafted with a new pull tab, revamped upper made from heat pressed TPU embroidered yarns, and a refined collar shape that alleviates pressure on the Achilles. Light, fast and unquestionably responsive, the **Mach 4** delivers a daily dose of speed.
